LACOMBE, ALBERTA, WEDNESDAY, APRIL 16, 1919

Subscription—Canada and Other British Possessions, \$1.50 per year

When buying a tractor the first question you should ask is—"Where can I get Repairs?"

In choosing our contracts this question is the first one we ask, and we see that all our lines are backed by reputable, established concerns.

We have the Mogul 10-20 3-plow Tractor, 1 cylinder.
The Titan 10-20 3-plow Tractor, 2 cylinder
Emerson-Brantingham 12-20 3-plow, 4 cylinder
The Fordson 2-plow, 4 cylinder

Can you beat this line for SERVICE? And remember we have the experts ourselves to give QUICK SERVICE.

Every Woman Wants a New Easter Hat

and is disappointed if she does not have one. Our display makes a selection easy.

NO WOMAN COULD ASK FOR SWELLER FOOTWEAR

Than the new spring styles we are showing. Styles are finer in appearance than last year, and Oxfords will be in high favor this season. These new Empress Oxfords represent the height of perfection in Canadian made footwear. In patent Kid and Mahogany Calf.

Easter Gloves for Women

Fine kid gloves, chamoisette and silk gloves, in long and short styles.

Easter Clothes for Men and Women

The Popular Materials and Smart Styles

WOMEN'S SUITS AND COATS IN MANY NEW STYLES

You Women and Misses who like to wear styles which are head and shoulders above the commonplace, should not fail to see our stock. You will be charmed with the styles and the splendid way they are finished. Good taste is displayed in every line—They are distinctly new—Prices are very reasonable.

Spring Suits for Men and Boys

THE EVER POPULAR BLUE SERGE SUIT

New, medium weight models. Because of its neatness and general adaptability, blue serge for men's suits steadily grows in popularity. The new stock is finely tailored, and just the right weight for general wear.

At \$27.50 to \$37.50

FOR THE BOY WHO IS HARD ON HIS CLOTHES

And most healthy boys are, but they must have a new spring suit, and they are particular about the style. They want many styles, adapted to their needs, and they can get just that style here, and made from strong wearing tweeds. All sizes.

GROCERY DEPARTMENT

Apples—we still have some delicious dessert apples—also a few cookers at a lower price. \$2.50 to \$3.50 a box.

We expect for Easter Fresh Rhubarb, Lettuce, Ripe Tomatoes, Strawberries, Bananas, Grape Fruit and Oranges.

McLeod's

MILLINERY

The new hats we told you about last week are here, ready for your selection.

It's Up to You!

Why should you go through life with half sight, or poor vision? The other day I fitted a man with glasses who had gone through life so near sighted that he could not recognize a friend across the street. This man had never known the joy of clear vision, and it was a pleasure to see his delight when he viewed distant objects for the first time.

Then there is a person who has a headache after reading for a short time. It is more painful that the near sighted condition, but yields equally when proper glasses are worn. If you are having trouble with your eyes, have them tested.

SHERIFF'S SALE

Province of Alberta to wit: By virtue of a Writ of Execution issued out of the District Court of the District of Red Deer, at the suit of Putland and Thorp Plaintiff, and Joseph Ernest Walton, defendant, and to me directed against the Goods and Lands of defendant John Ernest Walton. I have seized and taken into execution the following Lands: namely: The south east quarter of section Eighteen (18), Township of Forty-Two, (42), Range One (1), West of the Fifth Meridian, in the province of Alberta, excepting the land covered by the waters of Lake No. 2, also mines and minerals, subject to the reservations in the existing certificate of title and subject to taxes due and to accrue due. I am advised that no person is living upon the lands, that there have been about 25 acres broken and cropped. There are about eighty (80) acres fenced and the balance is covered with timber and brush. A small creek runs through one corner of the land. There is a small house erected on the land, no other buildings, the land is three miles from a school, church and Post Office, six miles from Rimbey and fourteen miles from Bentley, which I shall expose for sale on Wednesday the 30th day of April, 1919, at the Star Livery Barn, Lacombe at the hour of 2 o'clock P.M. John A. McPherson, Sheriff, Judicial District of Red Deer. W. G. Sage, Bailiff. Sheriff's office, March 28th, 1919. Red Deer.

Flowers for Easter

Mrs. Gibberson will have a beautiful display of Easter flowers at Arnot's store this week and next, and if you will leave your orders you can get them filled before Easter. Prices very reasonable.

Sid Works on a Farm, and tells Bill about it.

Letters from a boy who went from the slums of a city to work on a farm, to his friend Bill. Special for the Globe

Dear Bill:—

At last I have time to rite, but I shure have been awfull busy since I came to this farm to work. I wanta tell you all the things I have seen an lurnt since I left town. We git up at sicks in the night, cuz you no they aint no pitcher show out hear nor nothing and we hav nothing to keep us up unless one of the kows gets lost and we hav to hunt for him. I shure wood like you to cum out hear but I no you woodn't like it cuz you wood be kep busy, you wood help me out of some wurk tho, the gink what named the farm mashinery we hav hear didn't no what he was talking about, the other day the farmer said that he wuz going to git out his seed drill, I didnt no befour that you had to drill seeds befour you planted em, and besides all the seeds are cornels and they never drill cornels do they bill, we farm about for hundred ackers of land hear, I do not no why they call the land ackers less it is cuz it makes you longer take to wurck on it. You no bill we hav all kind of animals out hear, kows, zaffs, pigs chickens, dux and hoases. My farmer also has a gas tractor and some plous, they say that they goin to be a barn dance next week, I shure an going to see it cuz you no bill I hav never seen a barn dance befour, and I don't think they can do it, neither. I do not no why it is that the kows drink so much water I hav to pump for about a our and a half to watter ten of em, gee I wish they wuz camels, they drink more than those elefants we wattered at the sirkus last summer, the first day I wuz hear when we sat down to supper, the farmer sed we will let the knew boy say the grase I said to him the only grase I new was a girl, they all left so hard at this that I perty near died, I sed sumthing funny, no won started to eat until after the farmer boned his head and said his prayers, I gess he sed them cuz he wuz scared of thing sikk I no he sed difrent things when the hoarse stepped on his foot the other day.

Well bill I must kloz now as it is gitting late and I hav to git in sunition—Auntie, I gess, so long until I rite to you again, sid.

Berlin people have taken to gambling. One would imagine that what with revolution, food shortage and all the rest of the excitement in the German Capital, the people would have more than sufficient distraction without adding this foolish one to the long list.

Mare and Colt Lost

Bay mare, weight about 1000 lbs., dark bay horse colt with her. Last seen south of Gull Lake. Mare humpbacked. Reward for information. Apply to J. Graydon, Lacombe.

Electric Railway to be Extended to Rimbey

Government Votes Another Half Million Dollars.

Andrew Gilmour Strongly Supports Government.

An immediate extension by the government of the Lacombe and Blindman Valley railway to Rimbey, twenty miles northwest of Bentley, the present terminus of the line, was authorized in the legislature Wednesday afternoon with the second reading of the bill introduced for this purpose by Premier Stewart.

Significant in this connection was the candid statement made by the premier that so far as the personally concerned the provincial government will take the first opportunity to dispose of the system to one of the larger railway companies. Steps toward this end had already been taken and the Canadian Pacific was apparently not unfavorably disposed of considering the acquisition of the line providing it be extended sufficiently beyond the present terminus twenty miles west of Lacombe. The premier pointed out that there was a possibility of the Canadian Pacific building southeast of Edmonton to the Rock Rapids power site in which case not more than 80 miles of territory would intervene between the end of steel at Bentley and the Rapids.

While announcing that the provincial government had no intention of entering into the railway business, the premier went further and drew applause from both sides of the house when he declared that while he was head of the government there would be no more railway bond guarantees.

The cost of constructing the Lacombe and Blindman Valley, another twenty miles and placing the system in good running order, without track balast would be \$500,000, the premier stated. Taking care of all charges to date the province has expended about \$613,000 on the system, so that the total cost would be practically one million dollars for the 40 miles of track and essential transportation requirements.

A. Gilmour, opposition member for Lacombe, strongly endorsed the attitude of the government on the extension of the line and H. L. Montgomery of Wetaskiwin, and S. G. Tobin of Leduc, spoke of the great need of a railway traversing the country west of the C. and E. which would readily be secured by extending the L. and B. M. V. to connect with a branch which might soon be built from Strathcona to Rocky Rapids.

After granting a second reading to this railway bill which A. F. Ewing, Dr. Blow and G. Hoadley, from the opposition benches made an occasion for recrudescence criticism of the government's former railway policy, the house reported from committee of the whole amendments of the Dower Act as already revised, the two measures taking up practically the entire afternoon. Second reading was given an act respecting the supreme court, and administration of justice; third reading was granted the bulk sales act amendments and from committee the house reported the mother's pensions bill. H. L. Montgomery chairman of the municipal law committee, reported the amendments to the Edmonton charter.

Moving the second reading of the Lacombe and Blindman Valley railway act, Premier Stewart reviewed briefly the course of events which followed the incorporation of the company in 1909. During 1913, under a provincial guarantee of \$7,000 a mile, work was carried forward on the line providing a light railway service subsequently between Leduc and Bentley. In 1914 it became necessary for government to take over the system, acquiring most of the private stock at 45 cents on the dollar, totaling \$1,841,35. The government obligation amounted to \$233,000 in proceeds of bonds; \$255,000 in advances; \$41,000 in interest charges and \$9,000 in accrued interest and \$35,000 in outstanding liabilities. All expenses had been paid up with the exception of \$600.

The premier declared that were it not for the serious necessities of providing the railway facilities for the fertile and well-settled districts in the direction of Rimbey, he would not for a moment consider spending another \$500,000 in extending the line. Frankly he wanted to dispose of the system to the first purchaser which would take it over. The Canadian Pacific was interested because of the possible connection which would be possible with line from Strathcona to Rocky Rapids, affording a loop of 135 miles west of Pigeon

lake between Lacombe and Edmonton. This would be an excellent branch system for one of the large railway corporations and he had reasons to believe that the C.P.R. was considering a policy of much greater expansion in the northern part of the province. He told the house that the C. P. R. would be given every assistance from the government in this respect, but that this assistance would in no case take the form of guarantees. The government would not undertake any more responsibilities in this nature. However, the government had the L. and B. M. V. line on their hands and seemed advisable to extend the system another twenty miles. Up to the present time the line had fairly well paid operation costs and showing would be improved when conditions became normal and the road tapped still more productive portion of the country.

H. L. Montgomery, Wetaskiwin, expressed his regret that such a report must necessarily be given to the house. This railway system was regarded as an experiment in light railway service whose success would have been followed with an expansion, of such systems to outlying districts all over the province. He pointed out the immense farming ranching and lumbering possibilities of the country west of the C. and E. between Lacombe and Edmonton. While the provincial government might not be in a position to carry on the work, it would appear highly desirable to use every endeavor to have the line extended from Rimbey to the west with the road running southwest to Strathcona.

The great area of excellent farm lands west of Pigeon and Gull lakes; the fine stock country, the fish supplies and the firewood and timber resources would insure profitable operation to any railway operating through this region. Mr. Montgomery reminded the house that the finest whitefish on the continent were obtained from Pigeon and Buck Lakes, and a railway would make it possible to take fish from these lakes in the morning and have them on the supper table of Edmonton the same day. Then as to fire wood possibilities he pointed out that within reach government never had to supply them with seed grain or groceries. The settlers were in this country by the thousands and richly deserved more adequate railway facilities.

Mr. Montgomery suggested that federal government might well build a loop through the region connecting with Rimbey and could acquire enough cheap land to build the line and then resell later and build the system from profits derived.

The member from Leduc, S. G. Tobin, spoke with warmth and vigor in support of a railway west of the C. and E., drawing the attention of the house to a map prepared by himself and which showed that in all the great territory southwest of Edmonton and west of the Calgary and Edmonton line, not only the railway extended north of Lacombe while to the eastward in the same area there was a perfect network of railways. He claimed that the west had as many resources in wealth above and below ground. Settlers were 60 miles west of Leduc, and this fine country had been farmed for the last 25 years. So sure were they of the opportunities which awaited a railway, the confidence in the line within the near future.

Calgary and Edmonton railway was the most congested of any of the western lines and the bulk of this business came from the railway extending north of Lacombe while to the eastward in the same area there was a perfect network of railways. He claimed that the west had as many resources in wealth above and below ground. Settlers were 60 miles west of Leduc, and this fine country had been farmed for the last 25 years. So sure were they of the opportunities which awaited a railway, the confidence in the line within the near future.

aftermath of the railway policy pursued in the past. The Blindman Valley was one of the fairest which would be looked upon and Rimbey district deserved all-way but it should be a definite principle that no public utility should be pledged by the province unless the utility could pay its way. He could not find any evidence of the government making an attempt to make company live up to the terms of the original undertaking. The company was never sound financially, he was certain, and he thought himself well within the facts in asserting that but little of the promoters' money had been spent in the venture. If the government would deal with mere speculators, then it must accept the inevitable result. Trusteehip was practically the same in respect to the other lines guaranteed by the government, the E. D. and B. C.; the A. and G. W. and the G.T.P. branch lines.

The province would probably within a short time have to take over these systems and buy out the shareholders at their own price. In answer to the member of Wetaskiwin, he declared that the federal government could not come to the rescue of the provinces in the unsound railway deals. He pointed out that the people of Canada had been forced to shoulder railway burdens which were unthinkable five years previous. Mr. Ewing also claims that the light railways act of the government should be repealed when it permitted such ventures as the Lacombe and Blindman Valley system to be guaranteed up to \$14,000 a mile.

Hon. Mr. J. R. Boyle stated the opposition members professed to have held a superhuman foresight on railway matters, when the sight was looking backward at the moment. They evidently thought the government should have stood still. As a matter of fact all the provinces had lost money in the opening of a new country. The federal policy of railway development unfortunately "stopped" with the main lines, and the provinces had to see that branch lines were constructed. Every government in Canada knew that chances were being taken when the guarantee policies were followed some years ago. Alberta was in a better position than any of the other western provinces in this respect, because of the more varied resources.

M. Boyle showed how the railway policy in Alberta had helped thousands of people into prosperous homes, and the wealth of the people had been increased tremendously thereby, and yet the only default in all the hundreds of miles of railway guaranteed was that of a little system of 20 miles. He was not alarmed over the situation respecting the E. D. and B. C. and the A. and G. W. "If this province had nothing more alarming to worry about than the railway situation then we would indeed be lucky," declared the attorney general.

Dr. Blow opposition member for south Calgary criticized the government for its former railway policy. The case of Lacombe, he stated showed what price would have to be paid for this policy. The people along Blindman Valley line would have to suffer for the exploitation of railway charters, by reason of necessary high transportation rates. "And the worst is that the government doesn't know even yet that this railway policy was all wrong. The business record of this government is rotten and now it comes along with a can of veneer and a varnish brush and attempts to cover up this rottenness," asserted the doctor amidst laughter. He claimed that the McArthur railways north of Edmonton were about to default and then the government would have to take over systems which did not cost more than \$11,000 a mile to build. The members of opposition side of the house had always been opposed to building railways under the system of a guarantee. Dr. Blow declared that the house should be furnished with a candid statement of the whole railway situation and then the losses could be swallowed and a fresh start made on real business like principle.

A. Gilmour (opposition) of Lacombe strongly supported the bill holding that the course adopted by the government was the only logical one under the circumstances. He was glad to hear the premier's assurance that the line was to be extended to Rimbey, not on-

ly because such action was in every way desirable for the purpose of development, but because it guaranteed fulfillment of Premier Stewart's promise along this line to the people of that district. Mr. Gilmour said he was going to heartily support the measure because the government was taking the only way out. From the statement of the prime minister he judged that the road would be paid for its operation, and this with only twenty miles of service. In fact the most desirable portion of the Blindman valley was in advance of the present end of steel, and with an extension to Rimbey of 20 miles further along it appeared probable that the road would take care of itself. Personally he would advocate a still further extension of the road. Such development would greatly enhance the value of the line and make it more saleable to the C. P. R.

Mr. Gilmour reminded his friends of the opposition that receiving old criticism served no useful end in this case, and he challenged them to suggest a better way out of the difficulty. Personally he was in full accord with the premier.

In Regard Selling Of Provincial Bonds

Andrew Gilmour made the following remarks on above in the house last night.

I wish to register my protest at this time and I think this is the place to do it. If I am not in order I will take it up at some other time.

The Provincial Treasurer has stated that it has been the custom of the government in the past that the bonds were sold by private sales and we know that he sold in 1917 to the amount of \$1,500,000 bonds that were not advertised or tenders called for. A difference of opinion has been expressed as to how much the province lost by this sale. Charges were made by the newspapers and the Provincial Treasurer has laid himself out for severe criticism, or self open for severe criticism.

The point I wish to make is this: It does not matter so much what the Province lost by the sale, as the fact that Provincial treasurer of this province is allowed to sell the bonds without advertising, at any time and to any firm and with out calling for tenders. If the Minister of Agriculture were to take a trainload of cattle to the city of Toronto and say to a commission agent that if that agent would "pay him so much per head for the cattle" he could take for himself all he could make over and above that amount, he would be criticized, and severely criticized. The farmers and cattlemen of this province would know that this was no way to sell cattle, but apparently this government considers it all right for the Provincial Treasurer to sell the bonds to whom he sees fit at any time he likes and give no notice they are for sale and not call for tenders, and I wish to put in my protest against this practice. The Provincial Treasurer replies that I will hurt the credit of the province by criticizing him, and warns me to be careful. I think that is what I was sent here to do and I am surprised that provincial treasurer, considering that I am above criticism, or should be. Regarding sale of these bonds, if the bonds are always advertised and tenders called for, he will escape the criticism he does not like in future, and I believe it will be for the benefit of the province.

From Fred Butcher.

Through the kindness of the Western Globe, I can tell you all of our whereabouts. We left the old region on Feb. 28 for Long Beach the playground of America. We passed through the comparative waste that has not yet been reclaimed by irrigation. As we near the foothills our engine power is increased by two more very large mountain engines, which pull us around the aspen curve up and near the snow line, where we entered a two mile tunnel. Out of this we emerged into what I might call the valley of the Nile, for here are located some of the largest olive and orange groves in the world, and these fruits grow to perfection. All this beautiful growth is caused by irrigation, by which the fruit grower can regulate the amount of moisture, and makes it easy to produce the best. We are now near Los Angeles and everything presents a tropical appearance. Lovely palm trees line the roadside, and many kinds of flowers including roses, are here in profusion. The Pacific electric brings us to the Beach. This is one of the best electric car systems in the republic, and carries both passengers and freight, with hundreds of miles of track through the rural districts. We are nicely located in the Keweenaw Hotel, where we can hear the restless waves on the beach. Here is every amusement that inventive genius could dream of, to please and comfort people from every clime. At the Canadian picnic, there were 15000 Canadians in attendance. On Saturday we witnessed something new in the way of feats. A booster for the Hupmobile car, climbed the Alexandra Hotel up the outside for seven stories and over a four foot cornice, without aid of any kind. He then climbed up the flag pole. He is known as a 22 storey building in Los Angeles. The number of stories does not make any difference to him—that's his business. Along with the many amusements, there is a large ship building industry carried on here; also an immense fishing fleet. Ocean steamers loaded with lumber and other commodities, leave this port, and you can ship here for any part of the world. Sunday we took an ocean steamer for St. Catalina Islands where we spent part of the day viewing the submarine gardens through a glass bottomed boat. The wonders of plant life and animal, is beyond comprehension. We did not see any sharks, they mostly inhabit the land out here. We are going today to Rodondo, another beach, and tomorrow somewhere else. I would say right here, though, that I have not seen any beach out here that beats our own Gull Lake beach. Possibly just now Gull Lake would not be a friendly place for bathing, but later on it is all right. Catalina Island is rich in history. It was discovered in 1542. It is composed of rough rocky canyons and crags, and has an elevation at its highest point of 2000 feet. It has a splendid beach, and there is plenty of amusements for visitors. The early inhabitants of Catalina were a high class of Indians, but none remain. It has an area of 55000 acres, and wild goats afford good hunting. The climate is delightful. I hear the Wrigley, the chewing gum man has purchased the island of Catalina, so when any of you buy a package of gum, just remember you are paying the price, which was \$3,000,000. Wrigley is going to make it more attractive for the multitudes that visit it at all times of the year. By the time this letter is in the press, the writer will be in Iowa the land of corn and hogs. We are all well and having a fine trip.

From Fred Butcher and Party.

A new suggestion in connection with western grazing leases is that charges in connection therewith should be increased. That could be done without injuring anyone particularly. A grazing area that is not worth at least ten cents an acre to the lease holder isn't worthy of anything much.

Senator Robertson's announcement that the government will appoint a commission to investigate the proposal of joint control of all industry within the Dominion is evidence that the government is not sleeping. If the commission has been put on the job of locating them. They were stolen from near Kirk Dix's place.

Someone stole a load of posts from Chas. Curtis' pile on Gull Lake last week, and the posts have been put on the job of locating them. They were stolen from near Kirk Dix's place.

For Sale or Trade

Stears Estay

On the premises of Earl L. Evans, S.W. 1/4 4-40-4 W.5. 2 yearling steers, light brown. Appear to be yearlings, rather scrubby type. Jersey stain, hair scraped off left jaw. Have been grazing in vicinity of above premises all summer.

Government Whiskey

Since prohibition came in the Alberta government has handled the Province's booze supply thru vendors in Calgary and Edmonton. It would be the opinion of all respectable citizens that a government would handle a better stuff than was handled by the "bum" saloons of the Province under the old license system. But apparently booze brings all to the same level. An analysis of eight samples of "whiskey" from the Alberta vendor at Edmonton resulted as follows:

Sample no. 1 appeared to be genuine whiskey but contained a heavy sediment. Unfit for sale in such condition.

Sample no. 2, same as sample no. 1.

Sample No. 3 very dilute, low grade whiskey containing a very heavy sediment. Proof strength showed dilution from standard with one third water. Unfit for sale.

Sample No. 4 was a mixture of alcohol, brandy and a very dark coloring matter, the strength was one third lower than the minimum limit for whiskey. Unfit for sale.

Sample No. 5 was a mixture of alcohol, sugar and water. Slightly over one half whiskey strength. Sample No. 6 was a very dirty liquor containing very heavy sediment. Alcoholic strength O. K. but liquor not high grade and unfit for sale.

Sample No. 7 mixture of brandy and "home-made" squirrel whiskey. Unfit for sale.

Sample No. 8 was less than one-half standard strength and very dirty. Whiskey diluted with one half water.

And this booze came from the Alberta Government's Store. No comment is necessary.

Alix News

On Wednesday afternoon of this week, the remains of R. C. Hurly were laid away in the Alix cemetery, the services at home and grave being conducted by the Catholic church, of which he was a member. Deceased was sick but a few days having been confined to bed with the flu, and it was a shock to the entire community when the news of the sudden passing came over the wire. He was a native of Ireland, but some six years ago he came to this country and settled in the Alix District where he has proven himself an industrious farmer. He was a man, only 27 years old, leaves a wife and father to mourn. We join the friends of the family in extending sympathy to those in distress.

A couple of weeks ago, J. E. Gieselman purchased a four year old black Percheron from A. Hamel representing R. F. Dyvett Co. of Edmonton. \$2500.00 was the price paid, and he is a beauty.

Monday morning D. Melvin was taken to the Lacombe hospital to undergo treatment. He is suffering from pneumonia, which developed from an attack of the flu.

G. F. Fisher, who for the last four years has been manager of the local branch of the Union Bank, has resigned from the bank service and with his family, will leave in a few days for Okotoks where he will go into the garage business with his brother. As manager of the bank here, Mr. Fisher has proven himself very popular and was beyond question the best that Alix has known, and we are sorry to lose him together with his estimable family but we trust that he will have every prosperity in his new line of business. He is succeeded by F. B. Stevens of Cluny, who is already in charge. We welcome Mr. and Mrs. Stephens to our town.

Bulls' Quality Excellent, But Prices are Low

Calgary, April 11—Buyers and sellers alike were surprised at the result of the first day of Calgary's great annual bull sale, held on Tuesday.

That the quality of the animals especially the top-notchers, was fully as good as those which passed through the ring last year, was agreed on by all, and why the prices realized should have sagged to the point they did yesterday, no fella could understand.

That it betokened a lack of confidence in the future of one of Alberta's leading sources of Western wealth one would have to believe but on any other basis it is hard to explain.

That there is no lack of belief and confidence in the future of the cattle business in other countries, prices were higher in England and the United States for high

class cattle amply testified, and why Alberta's people should go limp at his time when the return from every head of cattle raised in the west is bound to be large for several years yet, is incomprehensible.

The slump would seem to have been greater among the highest grade animals and this was especially noticeable among the Herefords. Frank Collett's Willow Spring Booke, which would bring high in any company, only bringing \$1,600. Willow Spring Ford \$1,100. Across the line these two bulls would have easily doubled or perhaps trebled the price realized here.

That T. F. Gadzow of Edmonton, who bought the first bull named, and G. A. Sexsmith of Calgary, who became the fortunate owner of the second, got bargains beyond their hopes goes without saying.

While the reserve champion Hereford, a calf belonging to S. M. Mace, brought a figure more nearly commensurate with his value, he was a cheap animal, merit being considered.

Even with the herd bulls, Beau Perfection and Beau Donald 2nd, to show the line of breeding of the young stock in the ring, the Curtice Cattle Company, only averaged \$442.30 on the day's sales, as against \$510 for the Collett String.

HEARTBURN
or heaviness after meals are most annoying manifestations of acid-dyspepsia.

KI-MOIDS
pleasant to take, neutralize acidity and help restore normal digestion.

MAKERS OF SCOTT'S EMULSION

Changes are predicted in Gov't

Ottawa, April 8—With the peace conference nearing a close and Sir Robert Borden expected to be back in Ottawa by May 1st, there is a revival of gossip as to cabinet changes and reorganization.

The first question is whether Sir Robert intends to remain in Canadian politics or retire with his laurels to accept such post as the British Ambassadorship. He has given no intimation in communications to his colleagues and it is believed he has no intention of retiring from the premiership.

If by any chance he should resign, there is not the slightest doubt as to his successor. It would be Sir Thomas White. He has made friends, both in the house and in cabinet council, during Sir Robert's absence. In that case Hon. Arthur Meighen would likely be promoted to be minister of finance. There have been rumors that Sir Thomas himself might resign to re-enter business following the precedent of Secretary of the Treasury McAdoo of the Wilson Cabinet, who said he could not afford to remain in politics.

There is no doubt, financially that Sir Thomas is making a big sacrifice by remaining at Ottawa, but his friends feel positive he will stand by his post.

The resignation of Hon. T. A. Crerar is taken for granted, and Hon. Martin Burrell it is thought, will retire. There is also talk of Sir George Foster leaving the post of trade and commerce. Hon. N. W. Rowell intimated in the house recently that the cabinet will be reduced in size. Where the movement will start it is hard to say, unless his own portfolio of president of the privy council. There is talk of his going overseas as Canadian representative on the proposed imperial cabinet, if it is continued now that the war is over. As soon as demobilization is completed the portfolio of overseas minister of militia will be abolished and there is talk of reuniting the portfolios of interior and immigration.

It is likely that the actual cabinet reorganization will be postponed until the end of the season, as it is difficult in the turn of daily tidings to complete such a delicate task. In addition new ministers would be at big advantage taking hold while the season is in progress.

The Lacombe elevator will be closed for three weeks commencing next Monday.

Government to Fix Prices of Liquor Sold By Drugists

Edmonton, April 8—Prices on liquor sold by drugists will be fixed by the government by amendments to the Liquor Act, according to information that has been sent throughout the province by the attorney-general's department. This is the first intimation of what the new amendments are to be, and it is thought bankers have been informed to protect them from extending an unwarranted line of credit to new firms entering the drug business. Another amendment will be that government vendors may not sell liquor to an incorporated company ostensibly carrying on business prior to Jan. 1, 1919. Attorney-General J. B. Boyle has already announced in the house that he has ordered the government vendors not to sell to any new drug firm.

According to further information, the amendment relative to fixing prices will provide that a label be attached to each bottle showing the outside price at which such container may be sold. It is understood that the vendor will fix the price.

Other amendments, according to information, will provide for prescription blanks to be furnished to physicians in serial numbers.

Ponoka News
Several prize animals have come to our district from the Edmonton sales this week. John Hageman secured the first prize and champion Red Polled bull calf, while Henry Roman secured a fine two year old Hereford bull.

Pte. Eric W. Edwards arrived home from overseas on Friday. Mr. and Mrs. Edwards are the proud parents of three sons who volunteered their services. All three saw much fighting and two were wounded. Russell and Eric are home and the third brother is married and making his home in England.

Luther Jones arrived from the coast the other day, and expects to take up farming in this district. He returned from overseas last month, and had been visiting with his parents at the coast.

Hans Larson, has purchased the Hudson's Bay property, south of the creamery, and is about to fence the ground. No more walks up through the bush to the fair grounds. Rather a pity!

Mr. Larson will put the land to better use.

A. A. Peterson of Ferrybank, made a journey to Prince Albert the other week and purchased a herd of pure bred polled Hereford cattle. Albert's venture will be watched with interest and that he may have the best luck will be the wish of his many friends. In investing in such a valuable herd

he is but keeping in line with the other enterprising farmers of this community who are making such strides in the building up of their herds.

BROOKSLEY
The children of Brooksley and neighborhood are working hard for the annual rougher contest, which prizes will be given at the social to be held at the school house on the 9th of May.

The gophers are very plentiful this year and it is very important that efforts be made to exterminate them.

The Manitoba government is organizing a campaign to attract school children in the extermination of gophers. The department of agriculture will pay a bonus of three cents for each gopher killed. The bonus will this year be added to the boys or girls' medals instead of to the school and while the membership in boys' and girls' clubs is limited to those who are between ten and eighteen years of age in the gopher competition everyone under twenty is eligible to compete, and the de-

ONLY MEDICINE MADE FROM FRUIT

Extraordinary Success which "Fruit-a-Lives" Has Achieved

One reason why "Fruit-a-Lives" is so extraordinarily successful in giving relief to those suffering with Constipation, Torpid Liver, Indigestion, Headaches, Neuritis, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema and other Skin Affections, is because it is the only medicine in the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antiseptics of proven value.

Box a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-Lives Limited, Ottawa.

partment has made provision for paying for 100,000.

IOLA NEWS

I GUESS LONGFELLOW WILL HAVE TO TAKE A BACK SEAT—READ THIS

One time as I was travelling, I wandered miles away, I stopped at Iola.

Thats what I heard them say. I went to a ball that night. The finest that could be. The girls were in their dancing gowns.

As fine as you could see. The dance was going jovial. But the lurch was very thin. I think the man who told. His name was Albert Linn.

The floor manager was large hearted. And went in for a time. And thought it not advisable. To be the man behind.

And when the lurch was over. They discovered on a shelf. Two baskets in reserve. He put there for himself. Ther is something yet I must describe.

The thing I must unfold. A comedian we had with us. His name was Timothy Cole. He is young and fair and handsome.

And graceful as a bear. And if you want to have a time. Be sure and have him there. We asked him for his photo. At first he did decline.

"He said," you sure could have one. But I think there worth a dime. Everything was lovely. And Saunders run the floor. And the boys bought their Gum and Candy.

At Hoods department store.

Judicial Sale of Town Property
Pursuant to Judgment and Order of the Court, there will be offered for sale by Public Auction with the approval of a judge of the Supreme Court of Alberta, by Clarence E. Dameron, Esquire, at the Post Office at the Town of Lacombe, in the Province of Alberta, on

SATURDAY, the 19th day of April, A. D. 1919, at the hour of two o'clock in the afternoon; Lot six (6), in Block twelve (12) Plan 14, Lacombe.

The said property is situated on Nanton Street, in the Town of Lacombe.

The buildings on the said property consist of a small one storey frame dwelling, with kitchen extension; a one storey frame stable and a small shed.

The property is offered for sale subject to a reserve bid which has been fixed by a judge.

The purchaser is required to pay a deposit of ten per cent. of the purchase price to the Vendor's Solicitor at the time of sale, and the balance is to be paid into Court within sixty days without interest.

In all other respects the terms and conditions of the sale will be the standing conditions of sale of the Supreme Court of Alberta.

Further particulars can be obtained from the Vendor's Solicitor, A. M. MacDonald, Lacombe, Alberta.

Dated at the Town of Lacombe, in the Province of Alberta, this 27th day of March, A. D. 1919.

S. Simpson, Clerk of the Court.

L. J. FOUTS
Provincial Auctioneer.

Well experienced on the value of all things in the farming line. Sales conducted to assure the Owners highest approval. See me for dates or phone 1402. Box 117, Lacombe or arrangements can be made at the Globe Office.

WE HAVE A MOST ATTRACTIVE ASSORTMENT

Boudreau M.P. and Whiskey

Why the prohibition act is not enforced in Alberta is plain to all. Take the case of Boudreau, member of the Stewart government. This M.P. used to run a booze emporium at St. Albert before prohibition came into effect. He is now in the Dominion Drug Co. a drug store started last fall in Edmonton. His firm do a rushing business in one class of medicine, having the past few months purchased some \$27,000.00 worth of liquor from the Alberta Vendor at Edmonton. The liquor was retained at possibly one hundred and fifty per cent advance. When this fact is known, can any sane person wonder that bootlegging is smiled upon by the authorities; and can we hope for better administration while men like Boudreau represent the people in the Provinces' Parliament.

W.C.T.U. SHOULD ACT

It is up to the W.C.T.U. to at once pass and forward to the Government a resolution condemning the administration of the Liquor Act by the Alberta Government. When an ex hotel man, now in the drug business, who is a member of the Stewart Government, can purchase from the government Vendor \$27,800 worth of booze in a few months, anything should not be allowed to stand in the way of such a resolution. Surely the W. C. T. U. will take immediate action.

C.N.R. MAY COME

Without unduly arousing the hopes of our citizens, we make the announcement that the Canadian Northern Railway may be extended from Burbank to Lacombe this summer. This road was projected some six or seven years ago, and the company went so far as to build the grade up to the C. P. R. tracks about a mile south of the Lacombe. Then the slump came and railway building has been very quiet ever since. With the intention of providing lots of work for every man in Canada, railway building is to be prosecuted with vigor this summer. The C. N. R. alone will find work for more than ten thousand men in Alberta, and the other roads will provide work for an equal number. The line from Bentley to Rimbey will provide considerable work in district, although grading was completed some years ago. The government will also provide work for a large number of men on roads throughout the Province.

One thing is assured—there will be work and good wages for every man who is willing to work for his living, and if Bolsheviki ideas are kept out, the Province should enjoy greater prosperity during the next few years than we have yet seen.

The local G.W.V.A. will give a dance in the Veteran theatre on the evening of Easter Monday April 21. Tickets may be purchased at the box office of the theatre. Gentlemen \$1.00; Ladies, 50c. All are invited. Turn out and help the Veterans to get their rooms in good shape.

ST. ANDREW'S PRESBYTERIAN CHURCH
The Laughable Farce-Comedy**-The Young Village Doctor-**

will be presented at

VETERAN THEATRE

Wednesday April 30th.

commencing at 8.30 p.m.

ADMISSION—Reserved 75c. Unreserved 50c. Children 25c.

Makes Farce of Prohibition

Attorney-General Boyle admits that the liquor act is not being enforced by his department. He says that bootlegging is rampant in the Province. Surely a nice admission to be made by the man in whose department the enforcement of the law lies. But why blame poor Boyle. His confreres are not favorable to his enforcing the act, he is sure of his job, so why should he worry. Take the case of his brother member of Parliament, Boudreau, of St. Albert. Boudreau is an old time hotel man and when the booze business was voted out he started in the drug business. He purchased for his company from the Alberta government during the past months almost \$28,000 worth of booze for sale in his drug business. This booze possibly was retained at one hundred and fifty per cent, profit. Not a bad business, and we will let it amount to more than Boudreau ever made out of his booze emporium at St. Albert in the same time.

In consequence of the non-enforcement of the act, a movement is being started to have the law relaxed to the extent of allowing real beer and light wines to be sold in Alberta. It is said by those favoring the change that beer will do away with bootlegging. If this will be the case, and if the attorney general admits he cannot check bootlegging, why, let us have beer, or anything else. At present the government is making prohibition a farce—intentionally it appears to us—and we will welcome anything that will

Cream Shippers

Patronize your Home Creamery

You have a creamery in your own district that is a manufacturer of high dairy products. We have the reputation that follows quality, we can show more prizes for quality than any other creamery company in Canada, therefore you do not need to ship your cream to Calgary or Edmonton for skill in manufacture, efficient service, or right prices. We do not employ any special agents or canvassers for you to pay for. It will pay you to think it over.

Now that Spring has sprung, ship your cream to Lacombe Creamery.

Payments made prompt every week, or cash.

D. Morkeberg, Creamery Co. Ltd.

W. Hanson, Mgr.

make conditions better. We voted and worked for real prohibition and trusted that the Alberta government was acting in good faith. The government has shattered that idea.

"The Young Village Doctor"

—o—

"The Young Village Doctor" will be given by members of St. Andrew's Church on Wednesday evening, April 30th, at the Veteran Theatre. The story concerns a young doctor, who commences practice in a country village. Patients, varying in years and with varied ailments call on him, and many amusing scenes result. To many of the young ladies of the village, he is a desirable prospect but Jane Naughton, of his landlady, pretty and attractive, though an object of contempt to some of

the younger set becomes his bride. The play closes with the wedding and the reception following in which a varied musical program is presented. Mr. Manzer, Vice-principal of the school, is in the leading role, with Miss A. Parker taking the part of Jane. Seats may be booked at the McDermaid Drug Co., Price 75c. reserved. A limited number of rush seats, unreserved at 50c. each, children anywhere in the house 25c. Proceeds in aid of a War Memorial.

RAINCOATS

We have a good line of Waterproofs and Raincoats, at prices from \$5.00 to \$30.00. See them. We also have just received a new line of Sweaters, Belts, Braces, Etc. Prices are right. D. Cameron, next to post office.
